DAFFODIL FIELD PARK NOW OPEN

Dear Resident,

Our community park is now open and able to be enjoyed by everybody!

However there is still work to be completed, particularly planting of the many trees and plants that is scheduled to take place in the autumn, and much of the ground has also been seeded to allow grass to return. There will also be an ongoing programme of maintenance and improvements over time. Our apologies to any residents who were inconvenienced while the construction works were taking place. If you have any concerns or suggestions for how the park can be improved, please contact Kath Walton on 662720 or Whitley Parish Council.

At this early stage and until the works are complete, can we especially ask that

- Seeded and fenced areas are not walked or played on
- Any litter is taken away with you
- Dogs kept under control and dog waste removed
- The peace and privacy of local residents is respected

Please do visit and enjoy the open space of the park.
